

Index to Coroner's Inquests and Inquiries, 1859 to 1939

The following index is compiled from several series of government records that contain coroners' records from 1859 to 1939. Records less than 100 years old must be reviewed by the Information and Privacy Section of the BC Archives prior to access. For more information about access restrictions and privacy see our website here: <https://royalbcmuseum.bc.ca/bc-archives/what-we-do/foi-and-accessrestrictions>

This index is ordered alphabetically by the surname of the deceased individual taken from the record. All fields are keyword searchable. To retrieve an unrestricted record yourself, use the series identifier and container number to request a box or retrieve the reel from self-serve microfilm. To request a reproduction of the coroner's record through BC Archives staff, identify the series, container, inquest and inquiry numbers, as well as the individual's name, and submit your request to staff at access@royalbcmuseum.bc.ca.

For more information on coroner's records, please see the Coroner's Records guide here: <https://royalbcmuseum.bc.ca/bc-archives/tools/guides-indexes-and-inventories>.

The cause of death has been removed from this version of the index due to the sensitive subject matter. The full index can be provided upon request – please contact staff at access@royalbcmuseum.bc.ca.
