ROYAL BC
MUSEUM

Up close and personal

Content

Birds of prey have been feared and admired by societies throughout the world, but what do we really know about them? Find out in this consistently popular exhibition, which includes mounted specimens of all 16 species of owl and all 19 species of vulture, hawk, eagle and falcon native to Canada. With specimens displayed in natural poses and surrounded by elements suggestive of their habitats, *Birds of Prey* illustrates the might and majesty of birds. This exhibition gives visitors the opportunity to see these incredible creatures eye to steely eye.

Accompanying Material

Marketing Package

We provide an electronic tool kit with a sample media release, including background information on the exhibition, a title graphic and images to use in advertising.

Online Resources

There are rich online learning resources, including resources for teachers, available through the Royal BC Museum's website and Learning Portal, including images, audio and video.

Space Requirements

Birds of Prey is a flexible exhibition. It can be presented in two distinct parts—Owls and Raptors—or the individual showcases can be sent out independently.

About the Royal BC Museum

The Royal BC Museum explores the province's human history and natural history, advances new knowledge and understanding of BC, and provides a dynamic forum for discussion and a place for reflection. The museum and archives celebrate culture and history, telling the stories of BC in ways that enlighten, stimulate and inspire. Looking to the future, by 2017 the Royal BC Museum will be a refreshed, modern museum, extending its reach far beyond its two-hectare campus in Victoria as a world-class cultural venue and repository of digital treasures.
